

Sustainable Energy Partner

As your Sustainable Energy Partner, Utilita engages in an ongoing, collaborative relationship to advance a common vision and shared sustainability objectives. The partnership is structured around promoting renewable energy infrastructure and supporting energy-related carbon management activities within the boundary of your venue(s). The focus is on operational site and asset-related activities, ensuring a concentrated effort on tangible, measurable impacts.

Utilita will provide access to our consumer-focused renewable energy asset services, Utilita Giving fundraising initiatives, household energy efficiency campaigns, the football rebooted initiative, and any future relevant assets or campaigns. Together, we aim to maximise value creation towards the Sustainable Development Goals.

Alignment with the UN SDGs

Utilita structures its partnerships around **SDG 17**  – Partnership for the Goals. It is predicated on sharing knowledge, innovations and working together to solve systemic challenges. These challenges, and the aims and output of the partnership should be working towards the following:

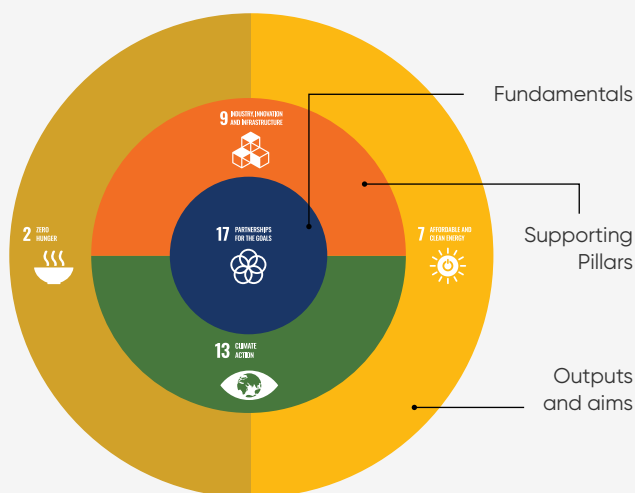

SDG 2  – **Zero Hunger:** Turning awareness into action in aid of creating a lasting impact against food poverty.

SDG 7  – **Affordable and Clean Energy:** Innovating and striving to expand access to renewable energy through the deployment of solar, batteries, and EV charging stations and future energy technologies. Maximising energy efficiency, through energy optimisation and behaviour change campaigns, with the overall aim of mitigating climate risks and preventing fuel poverty.

We will also apply the principles of **SDG 9**  – Industry, Innovation and Infrastructure and **SDG 13**  – Climate Action to facilitate success. This interconnected relationship is outlined in the diagram to the right.

Fighting Fuel and Food Poverty

Our partnership with Utilita Giving perfectly reflects our vision, values, and beliefs. Focused on supporting 6,000 households to overcome fuel and food poverty indefinitely over the next two years. Our partnership with you will draw on resources and knowledge from Utilita Giving and Utilita Energy, underscoring our shared commitment to making a sustainable, lasting impact in the communities we serve.

The Partnership Journey

At Utilita, we believe in creating partnerships that are truly collaborative and built around shared value. Together, we will co-create goals that align with your organisation's specific needs, ensuring the partnership is focused on delivering measurable outcomes and mutual benefits. By leveraging our shared expertise and resources, we will drive innovation and sustainable impact at every stage of the journey.

1

Define Goals: Collaboratively establish a shared vision and create specific, actionable goals tailored to your organisation's challenges and objectives.

2

Collaborate: Align resources and expertise, fostering innovation and identifying the best solutions to achieve our shared sustainability goals.

3

Implement Solutions: Deliver measurable, practical outcomes that work towards our goals.

4

Evaluate Impact: Regularly review progress against agreed metrics to ensure the partnership achieves its intended impact and continues to deliver value.
